

August 2019

## CALMOD E-NEWSLETTER

**In this issue:** Model Train Roadshow , Update on Electric Trains, and our E-News Survey .

### MODEL TRAIN ROADSHOW

Our Model Train Roadshow is kicking off this month! From the end of August through early December, we'll be taking a miniature model of our new electric train to stations, events, and other locations all over the Caltrain corridor. Visit the roadshow stops to get up close to the model train and win rad swag. Check us out on social media to find out where the roadshow is stopping next! For more info click here: [CalMod.org/Model-roadshow](https://CalMod.org/Model-roadshow)

## ELECTRIC TRAINS UPDATE

In August, electric train manufacturing continued with installation of components like passenger side doors, propulsion gearboxes, and truck bogies. Three trainsets are now being assembled in Salt Lake City. View more electric train images, like this photo of a passenger side door test endurance rig, at [CalMod.org/Gallery](http://CalMod.org/Gallery)

**WE WANT TO HEAR FROM YOU!**

Thank you to those who have taken our survey! If you haven't taken it yet, there's still time. **Complete our two-minute survey by August 31 and tell us what you want to see in the CalMod E-News.**

Let's do this!

1250 San Carlos Ave, San Carlos, CA 94070

For more details and a full list of upcoming meetings please visit  
[CalMod.org/events](http://CalMod.org/events).

## WHAT IS CALMOD?

The Caltrain Modernization Program (CalMod) includes electrification and other projects that will upgrade the performance, efficiency, capacity, safety and reliability of Caltrain's service. The current electrification project will electrify the corridor from San Francisco to San Jose and replace 75 percent of Caltrain's diesel service with high-performance electric trains, reducing air pollution and providing better service to more riders.
