SEPTEMBER 2018

CALMOD E-NEWSLETTER

In this Issue: Tunnel work, first wires strung, the latest on construction and vehicle manufacturing, and CalMod in the community.

SAN FRANCISCO TUNNEL WORK

Construction is advancing along the Caltrain corridor! To accommodate the brand new electric trains, construction crews will begin work in the four San Francisco tunnels starting in October. Crews will create additional clearance in the tunnel sides to accommodate the new trains and will install anchor bolts in the tunnel ceilings to facilitate the installation of the overhead contact system that will power the new electric trains. For more information visit CalMod.org/SFTunnels.

In order to facilitate work in the tunnels, **trains will not operate on weekends between San Francisco and Bayshore Stations from October 6, 2018 to late Spring 2019**. Caltrain service will stop at Bayshore Station and a bus bridge will transport passengers to the 22nd and 4th & King Stations. Weekday service will not be impacted. For more service information visit www.Caltrain.com/SFweekendClosure.

GET WIRED: FIRST MILE OF WIRE INSTALLED

The first mile of wire for Caltrain Electrification has been installed in San Bruno! Crews continue to pothole for utilities in South San Francisco to San Jose. Crews also continued construction of the traction power substation in San Jose which will provide power to the overall system once electrified.

To sign up for weekly construction updates or for more construction information visit CalMod.org/Construction.

ELECTRIC TRAIN UPDATE

The first cab car shell is now ready to begin interior assembly! September was a busy time, with three trainsets in production. The cab cars of the second trainset are underway, with structural testing being conducted on one and welding being done on the other.

UPCOMING EVENTS

Sunnyvale Community Meeting

September 17, 2018
 6:00 p.m. to 7:00 p.m.
 Washington Park Building
 840 W. Washington Ave., Sunnyvale

Local Policy Makers Group (LPMG)

September 27, 2018 at 5:30 pm
 SamTrans Administrative Offices
 Edward J. Bacciocco Auditorium
 1250 San Carlos Ave, San Carlos

Caltrain Board Meeting

October 4, 2018

10:00 a.m.

SamTrans Administrative Offices

Edward J. Bacciocco Auditorium

1250 San Carlos Ave, San Carlos

For more details and a full list of upcoming meetings please visit CalMod.org/events.

WHAT IS CALMOD?

The Caltrain Modernization Program (CalMod) includes electrification and other projects that will upgrade the performance, efficiency, capacity, safety and reliability of Caltrain's service. The current electrification project will electrify the corridor from San Francisco to San Jose and replace 75 percent of Caltrain's diesel service with high-performance electric trains, reducing air pollution and providing better service to more riders.
