

# CALTRAIN ELECTRIFICATION

## CHESTNUT CROSSING CLOSURE NOTICE | June, 2021

### UPCOMING ACTIVITIES AND LANE CLOSURE

Between June 25 and June 26, Caltrain will be performing foundation installation work in Redwood City that will require closure of the Chestnut railroad crossing to vehicle and bicycle traffic. The temporary closure is required due to construction equipment and crews entering and exiting the Caltrain right-of-way at Chestnut.

**Work will take place on June 25 through June 26 between 8 p.m. to 6 a.m.**

Construction signs and illuminated directional signs will direct vehicle traffic from Chestnut to Cassia and Main.

A closure map is provided on the reverse of this notice for vehicle and bicycle traffic.

### CONSTRUCTION ACTIVITIES

During the closure crews will be working along the Caltrain corridor to install foundations for the Caltrain Electrification Project.

Caltrain will work with contractors to minimize night work to limit the impact to surrounding communities; however, some work must be performed at night in order to maintain regular Caltrain service. To mitigate noise and other impacts during night activities, the field team will utilize acoustical noise barrier blankets and will position lights away from residential and business areas. Caltrain has established a dedicated project hotline and email for residents concerned about these potential impacts.

### PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2024, will electrify and upgrade the performance, operating efficiency, capacity, safety, and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

### CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is [calmod@caltrain.com](mailto:calmod@caltrain.com)
